This is not a normal massage. It is looking for trouble spots, which I have lots of, and the therapy is painful but helpful. He is very good and knowledgeable.

He dissolved my back spasms in a single treatment. I could barely get on the table when I went to see him then, 48 hours later, I was right as rain.

Mark is a no-nonsense therapist who knows what he's doing and gets right to work helping you. Went back for 2nd appointment after using my Groupon for the first one, as I'm confident that he will have my problems solved in short order.

A++ on deep tissue .. He releases any stress you might be feeling deep within.. Don't expect a rub down and "relaxation" it's deep pressure but you will feel REMARKABLE when your done!

Love him! Mark has been about to fix problems with my wrists and my neck that the medical community could not seem to repair after years of treatment. I highly recommend him!

Mark is great at his craft and an excellent educator as well. If you want to learn how your body's fascia may be causing pain and have Mark begin to resolve those issues, book a session! -- Tom
